## Prefatory Note.

---

The 1908 Ten Year Book is the fourth volume in the Ten Year Book series of the University, the other volumes having appeared in 1878, 1888 and 1898. The 1878 Ten Year Book contained information about all the students who had attended the University to that time. The 1888 Ten Year Book contained biographical sketches of all graduates of the University, and the name and original address of each non-graduate. The 1898 Ten Year Book contained only the name and address of each graduate, the non-graduates being omitted from that volume.

The present Ten Year Book includes all students from 1868 to 1908 and is issued by the University under the direction of the following committee selected by the Board of Trustees from the alumni of the University:

David Fletcher Hoy, '91, Chairman.

Albert William Smith, '78. Charles Henry Hull, '86.

Edwin Hamlin Woodruff, '88. Charles Edward Treman, '89.

William John Norton, '02.

The above committee determined the plan and scope of the work, but the collection of material for it and the direct editorial supervision were entrusted to the Chairman.

The book consists of the following divisions:

*Officers of administration and instruction:* A list of the Presidents, Acting Presidents and charter members of the Board of Trustees is first given, followed by an alphabetical list of the Trustees with dates of service and present address or date and place of death of each. Then follows a list of all other Officers of Instruction and Administration in which is given the titles of the positions, dates of service and present address where known.

*Students:* This list gives in alphabetical order all persons who have been students in regular or special courses but excludes those who have attended only the Summer or Short Winter courses. In

general the full name is followed by the date of entering and date of leaving, course taken, Cornell degree if any and date thereof, occupation and address. When a Cornell degree has not been given, the course has been indicated. Other degrees than those conferred by Cornell are not given. When a name has been changed both names are given and the name will be found in its proper place in the alphabet.

*Short course students:* This list contains the names of all students who have attended Summer Schools, or Summer Sessions, and Short Winter Sessions unless the name appears in the previous list under "Students."

*Geographical index:* Each living Cornellian, if address is known, is recorded. The United States is followed by other countries of America, and then the remaining countries follow sub-divided into groups in alphabetical order.

*Graduates:* The list of graduates is given in the order of graduation. Under each year the grouping is by degree and in general follows the order of the commencement programs.

The committee take this opportunity to thank all those Cornellians who by their aid have made the work possible. We realize that the book is not perfect but trust that our efforts will serve to strengthen the attachment of former students to their Alma Mater.
